

Antenna JRME – 680 - 10/11 is designed for microwave links at the frequency band 10 and 11 GHz. Precise performance with deep reflector dish and collar complies with standard ETSI class 3 and ACMA - RALI FX3 Grade B.

Electrical parameters:

– 12.0 GHz
± 1 dBi
± 1 dBi

ar, vertical/horizontal
C Part 101A 10.550 – 10.680 GHz C Part 101B 10.7 – 11.7 GHz 3 ETSI EN 302-217-4-2 B ACMA - RALI FX3

Mechanical parameters:

Parabola	ø 680 mm, Aluminium alloy	
Radome	UV steady plastic ABS	
Input/output	Circle waveguide Ø 19 mm	
Installation on mast	ø 40 - 120 mm	
Operating wind load	180 km/h (112 mph)	
Survival wind load	240 km/h (149 mph)	
Weight of antenna	7.3 kg (16.1 lbs.)	
of holder	3.2 kg (7.0 lbs.)	
Shipping dimension	800 x 800 x 430 mm/ 12.8 kg (28.2 lbs.)	

Usage:

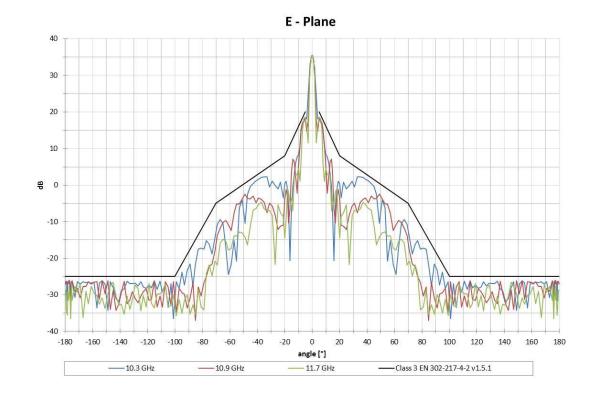

- deep parabola and collar for better parameters
- easy to assembly: first the holder and then the antenna only by 2 screws
- fine setting elevation (of gradient) and azimuth ± 20°
- extreme wind stability

The antenna is supplied with a holder that allows easy mounting on a mast. The holder can be installed separately on the mast. Subsequently, you can simply hang up the antenna with microwave unit into it. The holder allows precise adjustment in both directions. Ready for right and left side mounting.

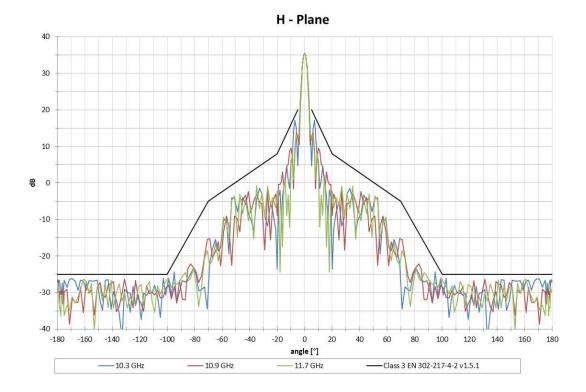

In the areas with the expected occurrence of the strong winds mounting on the mast with minimal ϕ 50 mm is recommended.

Parabolic antenna JRME - 680 -10/11
